

SnapCash Application

Screen Inventory & Visual Catalog

PREPARED FOR:

SnapCash Product & Engineering Teams

DOCUMENT VERSION:

v1.0.12 (Matching Application Build)

DATE OF ISSUE:

July 3, 2026

CLASSIFICATION:

Confidential / Internal Technical Reference

TABLE OF CONTENTS

This reference document details a comprehensive page-by-page screen inventory of the SnapCash mobile application interface (v1.0.12). The spec is organized into five core architectural sections representing the entire end-to-end user lifecycle, mobile routing, payment configurations, and administrative dashboards.

Operational Section / Functional Block	Catalog Scope
Part 1: Onboarding & Authentication Flow	Screens 1 to 5
Part 2: Customer Discovery & Request Cash Flow	Screens 6 to 11
Part 3: Merchant Dashboard & Request Management Flow	Screens 12 to 14
Part 4: Real-Time Payment & Handover Flow	Screens 15 to 23
Part 5: User Profile & Account Settings Flow	Screens 24 to 31

Integration Guide Reference: The functional steps and interfaces listed in this document coordinate with the automated provisioning backends of the ezyLite POS SDK and Partner API systems. Make sure that coordinate tolerances, proximity sensors, and payment redirect hooks align with this UI catalog.

PART 1: ONBOARDING & AUTHENTICATION FLOW

1. ONBOARDING SCREEN (SPLASH STATE 1)

Source File	Screenshot 2026-05-07 at 5.07.41 PM.png
Viewport Type	Mobile Portrait (Clean)
Heading	"Find Nearby Merchants."
Description	"Explore a map of trusted local stores offering cash withdrawal services."
Text Links	"I already have an account" (orange text link at the very bottom).

VISUAL ASSETS

- Centrally-aligned circular icon featuring an orange/salmon map icon.
- Dot indicator below the text showing page 1 of onboarding (first dot active orange, subsequent two dots light grey).

ON-SCREEN TEXT

No specific details logged.

INTERACTIVE CONTROLS

- Orange "Continue" button.
- Orange "Get Started" button.
- "I already have an account" click trigger.

2. ONBOARDING SCREEN (SPLASH STATE 1 - DESKTOP FRAME)

Source File	Screenshot 2026-05-07 at 5.07.58 PM.png
Viewport Type	Desktop/Tablet wrapped inside a light grey border frame.
Visual Assets & Text	Identical to the mobile onboarding screen (map icon, heading, description, and dots).
Functional Role	Demonstrates cross-platform viewport scaling for wider screens.

3. LOGIN SCREEN (EMPTY STATE)

Source File	Screenshot 2026-05-07 at 5.08.08 PM.png
-------------	---

VISUAL ASSETS

- Orange SnapCash brand logo (a conversation bubble showing a white dollar sign \$).
- "Log in to SnapCash" sub-header.

ON-SCREEN TEXT

- "Sign in with Google" (orange background button with white Google logo).
- "Sign in with Apple" (black background button with white Apple logo).
- Divider text: "Or continue with email"
- Labels: "Email", "Password", "Forgot password?" (orange utility link).

INTERACTIVE CONTROLS & INPUTS

- Email text input field with placeholder you@example.com.
- Password text input field with placeholder
- "Sign in with Email" button, currently in an inactive, semi-transparent light salmon color (blocked until text is entered).

4. LOGIN SCREEN (FILLED STATE)

Source File	Screenshot 2026-05-07 at 5.08.24 PM.png
Visual Assets	Same logo and layout as the empty state.

INTERACTIVE CONTROLS & INPUTS

- Email input field now populated with: fadlisaad@gmail.com.
- Password field now filled with masked characters (.....).
- "Sign in with Email" button is now fully active (solid dark orange color), allowing submission.

5. LOGIN VERIFICATION INTERFACE

Source File	Screenshot 2026-05-07 at 5.08.39 PM.png
Visual Assets & Layout	Secondary authentication status interface verifying email/password matching.
Functional Role	Internal routing screen during the authorization and session generation process.

PART 2: CUSTOMER DISCOVERY & REQUEST CASH FLOW

6. AVAILABLE MERCHANTS (LIST VIEW - STORES TAB)

Source File	Screenshot 2026-05-07 at 5.08.49 PM.png
Application Version Indicator	v1.0.12` centered above the bottom navigation bar.

VISUAL ASSETS

- Top Bar: Title "Available Merchants" with a "Map View" toggle button (top right).
- Segmented Control: "Stores" tab active (white background with shadow), "Mobile Merchants" tab inactive (grey background).
- Store Radius Slider: Currently configured at "Store Radius: 10 km".
- Sub-label: "Adjust the radius to find static stores further away."
